

Replacing your old rusty mechanical pressure switch with a smart transmitter ?

Think again!

You can use a much reliable smart ONE series pressure switch from UE and look at the benefits !

- **Use the same existing digital Input Cards.**
- **Use the same existing control cable.**
- **Get a large local LCD process display in addition to switching !**
- **Save on workmanship and man hours (10 times faster than converting it to a transmitter loop!).**
- **Save budget on instrumentation in this turbulent economy !**
